Weather Probabilities November 26. 1880 .-For the middle Atlantic States stationary followed by lower barometer, falling followed by by stationary or rising temperature, northerly earning to easterly or southerly winds, partly couly or cloudy weather and occasional snow.

THE PRIZE DRILL OF ST. JOHN'S CADETS -The prize drill of the cadets of St. John's Academy, yesterday afternoon, was witnessed by a large number of ladies and gentlemen, notwithstanding the snew storm, which had bee) ne qu'te heavy before its cocclusion. Quite a cumper of ledies from Washington were io attendance.

At 2:15 p. m. Company B was placed on guard shout the field, while Company A, C. ptaie B. L. Partiow, was drilled in marching and in the manual by Major Potter. The judges wate Captain Prancis L. Smith and Liau eoact thorge McBareey, ic., of the Alexandria Light Infantry, and Colonel Theodora H. Ficklin, formerly commandant. We also observed on the field General M. D. Corse, Majors Westel Willinghey and George T. Whittington, and a large number of other old soldiers, who appeared deeply interested in the mar @ avres.

Too drill of Company A by squade having been completed, the judges called before them Sergesct Divid H. Judges, of Mount Juckson, and Herman B. F. Heath, of Washington, and Cadets Frank F. DeLian, of Chicago, and Wm. I. Downey of this city, and finally decided in

Company B. Captain John DeLea, was drilled in company and by squads. Sergeant Frederick Il. Schneider, of this city, and Cadets Thomas P. D. Lea, of Chicago, John T. Rafferty, Wm. P. Waller, Bernard J. Donnelly, and Westel W. Willoughby, of this city, were called out, and the judges selected Sergeant Schneider as the best drilled.

The snow was new laking very fast, and things looked very much as they used to do deriog the war, the arms and naiforms of the young soldiers being covered with snow and the ground white, but they stood the ordeal of dress parade bravely, and the names of the successfal competitors baving been announced in general orders, they advaced to the front, and were presented by Captain Smith with the hamilal gold medals awarded them. Captain 3. Lad intended making the following congratulatory remarks, but the evening was so inclemthat he forbore doing so, furnishing them,

b; riquest, for publication. I is my pleasant duty to present you these beautiful prizes on being the best drilled cadets in Companies A and B of your corps. That you leel a laudable pride to having achieved this success I am convisced, and by the gratein expression of your comrades, I am assured that they participate in this feeling. This resait has not been attained uson your part without effort. The attentive mind, the ready hand, restraint. From it we learn the great lesson of ile-to obey those whom experience and ser vice render competent to cecupy more importagt positions than ourselves, and by so doing to command ourselves; for we all koon "that he that taketh a city." From the inauguration of the Olympic games to the present day it has fell pocketbork every time. een the custom in all liberty leving nations to fir prize to the young men for teats of strength and skill. I trust it may now so coutiene, for it promotes pleasant social relations, a repercus rivalry, independence of thought and notice, and a braich; physical improverespect and confidence of this community, and posses its gratitude also for bridging this institution of learning-the child of his own oreaioc-to its present state of us-falores and perteo ion. By his talent and nutiting efforts be bas made it what it is -a credit to hims. If and A. Crocker; Heathsville, A. Miles.

MID WINTER WEATHER -To-day, with the mitage nibe thermometer registering 29 de gie a shove zero, has presented a genuice mid winter of pearages. A snow storm from the porticas, has prevailed nearly all day and the fact that the ground, housetors and trees are covered with 820%, and the river is filed with floating ice a considerable distance from the shore, has geen seized upon by the "weather wise" as a basis for predictions of "a hard winter." King Winter often lingers in the lap of Spring, but he bas not been known for many vears 1 as: to take his seat so early in the lap of Fall. But here he is in all his glory; to some he brings joy and to others misery and suffering. Rem mber the poer.

an ornament to the city."

UNFORTUNATE SKATERS .- A cumber of tkaiers were on Hunting Creek and the oanal yesterday. Among these on the osnal were several young ladies accompanied by gentle men, and right j yfully did time and the skaters glide, notil a crash and a spream were heard. and lo! one of the ladies had broken in and suck above her waist. She was rescued, but not. however, until the two young gentlemen who performed the gallant act felt the biring cold of the classic stream. A number of other lovers of the graceful sport 'broke in," but all cacaped without injury, except such as might result from an open air bath in ico water on a winter day.

OYSTERS - Ogsters have been and continue to be corree in this place, and the quality or those that are brought here has so far been generally inferior. For small bivalves 40 cents a bushel is raid, while large Norfolk and Bay cysters selled from \$1 to \$1.25 a bushel. The Wes: Point Star says: "We learn that the opster trade in the Rappahannock river is better this winter than was ever known befor. Vessels seeking oysters are crowding up the river. Oysters are plentiful, and in excellent condition. Prices are good, and the oyster dealers of all classes are having a feast of it."

THE WAY TO FURNISH ITEMS. - The best and surest way to furgish first class items for the newspapers at this season of the year, ac cording to the experience of those competent to judga, is for citizens to allow their bydrants to tan during the night just long enough to form a sheet of smooth ice on the sidewalk in front of their residences the next morning. Then omes along an old gentleman or an old lady, all unconscious of impending danger, slips, fal's and treaks an arm or a color bone, and the good people of the city have the pleasure of ex pressing their sorrow over the news contained in an item headed, "A Sad Accident."

I. O. G. T .- At the last meeting of Excelthe following efficers were elected and appointed to serve for the ensuing quarter: W. C. T., L. W. Hatch; W. V. T., Mrs. E. J. Buck F. W. S. Miss Mary Reed; W. F. S. Miss diamie Bsil-s; W. T., Miss Virgie Mucsoo; W. C., Mrs. S. E. Bailey; W. M., H. L. W. Bach, W. J. G. Mrs. Apr. April 10 (1) bach; W. I. G., Mrs. Amy Austir; W. O. G., Charie Vorer; R. H. S. Hattie Buckly; L. H.

S., Lillian Munson. PAINFUL ACCIDENT. -Elia Brown, the twelve year old daughter of Mr. George Brown, who resides on Duke street, between Patrick and Heary, fell on the ice, with which the eidewalk bear the corner of Prince and Aifred streets is covered, this morning, and badly it jured herself. It was thought that her limb had been broken by the falt. Bhe was conveyed to her home in

e frezen over fast and tight, and although an ice breaker left Cumberland Tuesday last to c'ear a channel through the ica, no light boats had arrived at that port up to yesterday, and according to last reports the first level was full of loaded boats. A few boats were loaded at Comberland Wednesday, but they did not attempt to leave that port. It is thought by coal men that the re will be but few more trips made on the canal this season. Five canal boats, three for the American Coal Company and two for the Hampshire and Baltimers, strived in this ony to-day, and the captains report that a track has been broken by the ice breaker, from George town up to the six locks. An ice breaker was at work yesterday breaking the ice on the canal between this city and Georgetown. Navigation on the canal, it is said will be suspended sometime between the first and tenth of December, and the object of the managers is to get all the boats out-some two hundred in number, twenty tine of which are for the American Coal Company—into port by that time. Last year navigation was suspended on the 231 of Decomber, nearly a month later than this.

THE SHIP YARD -The brig Jeppie Martin arrived at the ship yard from Washington Wednerday for repairs, but owing to some dis arrangement of the "down baul" chain of the oradle of the railway, she could not be hauled up. The steam tug America arrived here yes terday from Baltimore and towed her around to that cit, where she will undergo an over hanling.—The damages to the ways, supposed to have been caused by the late accident at the yard, have been repaired by "divers" from Baltimore, whose services were found to be occessary, and the steamer Mystic, demaged by ios in the Lower Potomac, on her way to this city yesterday, was hauled up this afternoon.

LOCAL BREVITIES. The city school board will meet to-night. There were no cases at police headquarters to-

The alarm of fire about seven c'clock last night was caused by a turning chimney on south Boyal street, in the neighborhood known as "Hayti."

Rev. Mr. Pearce delivered an interesting Thanksgiving discourse in the M. E. Church last night, which was listened to by a large con-gregation, notwithstanding the inclemency of the weather.

The lecture of Professor Carter, on Psychology, delivered at Psabody Hall last night, under the auspices of the young gentlemen of St. John's Academy, was very largely attended, and the experiments and illustrations afforded great amusement to the audience.

[COMMUNICATED.

THE POLICY FOR THE SOUTH. - I have with great pleasure noticed in a late issue of your re liable and staugeh democratic paper a call upon a prominent Northern journal theerful chedieces to the instructor, and, above for a list of democratic manufacturers all, the determination to succeed have combined of the North for the benefit of the to render you entitled to the clive wreath. The Southern merchants. Now this sentiment has discipline of a soldier's life is full of valuable the ring of the Simon pure metal in it, which less is. By it every form of mied and body is if it were taken up by the Southern press "en brought into play and developed, and at the masse" and made the pith of their every issue, some time kept under a proper and healthful and was persistently sounded into the ears of the merchantile world of the South, until it became embodied into their plans of business in tercourse with the North, there would be no more build zing of operatives by republican operators. for with them politics means money more than principle and they would henceforth shape their adhesion to par y as best suited the securing a AGGRESSIVE DEMOCRAT.

Washington, D. C., Nov. 24 1880.

The Irish Troubles.

LONDON, Nov. 26 -The Times is a leading article this morning says: "We fear that Mr. Forster was unable yesterday to eccourage his New Crop New Orleans Molasses collegues with a report that lawlessness is abating in Ireland. It is too plain that the most detestable outrages daily recur and that upparathled terrorism has been imposed on the Irish counties. The law is almost powerless to prevent these orimes or to punish the criminals The authorities have made every effer: to protect life and property by employing the ordinary forces but the constituoy is too strong and subtle to be so restrained. The utmcs: that can be done effectually at present is to defend the few persons who are threatened. Some eighty Itish goatlemen are under police pro-

Execution.

SALEM, Va., Nov. 26.—The execution of Marcus De Lafsystic Hawley, who was convicted last month in the Circuit Court of this county for the murder of Z chariah Hayes in June of last year, took p ac bere to day. Both the murderer and tis vic im were white men. The execution was conducted privately, the only persons present being the officers of the court, a small guard, a minister of the grapel and representatives of the press. The weather was exceedingly disagreeable, a cold rain with snow and sleet prevailing, the latter falling steadily during the hanging.

Fight with Indians,

GALVESTON, November 26.—A dispatch from Dallas, Texas, says: News has reached here from the Indian Territory of an encounter between 10 cow boys and 15 Indians on the Comanche's reservation. Seven persons were killed and wounded. The cow boys abandoned the wounded and escaped into the Panhandle.

Colored Man Murdered.

BORDENTOWN, N. J., Nov. 26 .- Chas. Ross. an aged colored man of this city, was murdered last night at the house of Charles Mose, in West street, where there was a social gathering, by some person unknown. The right leg, the bone excepted, was nearly severed, it is supposed by a rizor.

Rallroad Accident,

GALVESTON, Tex., Nov. 26. - The rear coach of a south bound passenger train on the Gulf Colorado and Sante Fe railroad was thrown from the track and overturned near Arcola, yes terday, injuring two ladies and one old gentle man, the latter seriously.

The Eastern War.

RAGUSA, Nov. 26.—Dervisch Pasha has oc-capied the Mazura Heights, compelling the Albenians to abandon their entrenchments. The Turks are thus enabled to communicate with the Montenegrin brigade sent to the frontier under general Petronic.

Frozen to Death. CHICAGO, Nov. 26.-The body of an unknown woman was found last evening in the back pard of a house on Butterfield stree', fr. z : n st. ff. She had been drinking excessively sesterday.
